## Personal Statement

An enthusiastic, self-motivated and creative individual wanting to build his career in the 3D creative field.

A proven track record with substantial experience of working with interior designers, architects and media agencies on various small individual and large, complex projects from start to completion.

This experience has provided a solid foundation for successful interpersonal communication and interdisciplinary skills with the aim of providing professional 3D visualisation and animation solutions.

Experience with setting up and maintaining hardware and software necessary to provide a platform for an efficient and successful workflow.

Very passionate about interior design and architecture, specializing mainly in 3D Visualization. My goal in life is to express my creativity in these fields and have the opportunity to work with the best in order to grow and meet my full potential.

  - After Effects - (advanced)
  - Adobe Illustrator - (moderate)
  - AutoCAD - (basic)
  - RealFlow - (basic)
  - Vue - (basic)
-

## Work Experience

**Adeo Design, Ljubljana, Slovenia**  
**Visual artist**

**2008 to 2013**

- Owned and managed a small freelance business, which primarily encompassed creating photorealistic visualisations for architectural competitions, interior design and interior/exterior renderings, with additional specialization in fly-through animations for marketing and product visualisation.
  - Experienced at reading and interpreting architectural and technical plans, with an ability to follow architects or designers creative lead.
  - Creating animations, including motion graphics for advertisements and presentations.
  - Have experience in the field of print and web design: Joomla websites, corporate ID, brochures and posters.
  - Being self-employed required knowledge of building and creating a solid and sustainable foundation of new clientele.
  - Experience in liaising with professionals.
  - Maintaining and promoting of the business through Advertising and E-Marketing.
- 

## Education

**Srecko Kosovel High School, Sezana, Slovenia**

**1995 to 2000**

Attended a business oriented technical high school (secondary school), that I passed with distinction.

Self-taught in the field of computer graphics and design (through online and video courses such as CG Workshop, CG Architect, Lynda etc.) and through years of experience in owning and running my own small Multimedia business.

Passionately driven to master the newest and latest techniques and software packages in order to offer the best design and visualisation solutions.

---

## Hobbies and Interests

I thoroughly enjoy all things related to nature, hiking, history, art, philosophy, photography and animals.
