PROFESSIONAL PROFILE

A forward thinking, results driven Senior Architectural Technologist who has acquired more than 25 years experience working in Canada, Denmark and the UK. Possesses outstanding design, detailing and drafting skills, and experienced in the use of innovative technology tailored towards clients in the private and public sectors.

Also has extensive experience, within large Architectural companies as well as her own successful free-lance business, of efficiently managing projects, contracts, resources and staff and is a leader who can motivate others to meet demanding targets. Is quick to grasp new concepts and ideas and possesses a logical, analytical and creative approach to problem solving. Possesses excellent interpersonal skills and the ability to communicate professionally with clients, consultants, suppliers and contractors alike. Enjoys being part of a successful and productive team, and thrives in pressurised and challenging working environments. Has a sound working knowledge of building construction methods, and Building Regulation requirements.

CAREER OBJECTIVE

Now seeking a challenging role that will make best use of existing skills, qualifications and experience whilst allowing the opportunity for further personal and professional development.

Helping to create a supportive environment for mothers and young children in the community

INTERESTS

Travel:

In addition to travelling extensively in Europe, Scandinavia, Russia and North America, my husband and I took a couple of backpacks, while relocating from UK to Canada in 1990, and took the 'scenic' route via Asia. We spent six months travelling, mostly overland on local buses and trains, through Nepal, India, Thailand, Malaysia and Indonesia, returning to Canada via New Zealand and the Pacific Islands. It was an experience that made a deep impression on both of us and awoke a great respect for this part of the world, its history, culture, and fascinating architecture, and above all its people.

Sketching & reading , Hiking, Cycling, Sailing, Cross-country skiing,
Canoeing & Kayaking
